

Plant Guide – Back

<u>Name</u>	<u>Qty.</u>	<u>Description</u>
Arborvitae - <i>Emerald Green</i>	5	Narrow, pyramidal evergreen displaying dense emerald green foliage. Holds its foliage color throughout winter. Excellent medium to large hedge or screening plant.
Boxwood – <i>Wedding Ring</i>	8	A hardy, compact Boxwood. Its rich glossy green foliage has a lime margin that matures to gold as summer progresses. It holds its color well in summer and winter. An excellent addition to formal gardens, or as a year-round accent plant.
Coreopsis - <i>Zagreb</i>	7	Bright golden-yellow flowers (a deeper yellow than 'Moonbeam') blooming from early through late summer. It forms an exceptionally bushy yet airy clump of fine, needle-like foliage on upright stems.
Grass - <i>Dwarf Fountain</i>	2	Attractive grass highlighted by fluffy, buff-colored plumes arching above foliage. Terrific contrast used among shrub or backdrop for perennial bed. Foliage turns golden russet in fall. Perennial.
Hydrangea - <i>Endless Summer</i>	7	The first repeat blooming mophead Hydrangea. Remove spent flowers to have blooms from spring to fall. Cut emerging spring growth back to half to increase the number of pink (in alkaline soil) or blue (in acidic soils with sufficient aluminum) blooms.
Liriope – <i>Variegated</i>	4	Forms small fountain-like clumps of leaves that are brightly striped green and cream. Dense spikes of lavender-violet purple flowers arise from the middle of the clumps in late summer.
Salvia – <i>May Night</i>	14	This clump-forming, compact salvia features numerous, dense, upright, spike-like racemes of tiny, two-lipped, deep violet-blue flowers which rise above gray-green foliage to a height of 18-24". Flowers bloom in May and June and may rebloom sporadically into late summer if faded flowers are promptly cut back. Excellent fresh cut flower. A mint family member which is slightly aromatic when crushed and is attractive to bees and butterflies.
Spruce – <i>Dwarf Alberta</i>	2	Dwarf evergreen with short dark green needles. New growth of fluffy bright green needles emerges in spring. Provides all-season color, texture and landscape contrast.
Willow – <i>Dappled on Standard</i>	1	Japanese ornamental tree with outstanding white-green-pink variegated foliage. Slender branches move gently in the breeze. Provides a beautiful contrast in the landscape and popular habitat for birds.
